EDUCATION

2026 - Present	KELLOGG SCHOOL OF MANAGEMENT NORTHWESTERN UNIVERSITY <i>Candidate for Master of Business Administration degree, June 2028</i> Intended major: Strategy; Intended specialization: Analytics and AI	Evanston, IL
2020 - 2021	MONASH UNIVERSITY <i>Master of Advanced Mechanical Engineering</i> - Australia Awards Scholarship (DFAT): 1 of 8 recipients across India; Graduated with High Distinction - VP External Relations, Monash Energy Club; Internships at ENGIE Impact and Lactalis	Melbourne, Australia
2015 - 2019	THAPAR INSTITUTE OF ENGINEERING AND TECHNOLOGY (TIET) <i>Bachelor of Engineering (Mechanical)</i> Highest CGPA, 2016; General Secretary, Paryavaran Club (environmental conservation society)	Patiala, India

EXPERIENCE

2025 - 2026	VANCITY <i>Management Consultant - Climate Risk</i> - Led Vancity's first climate risk framework from design to Board ratification in 5 months as sole firmwide expert, presenting to the Board and setting up its executive committee, escalation paths, and exposure limits - Trained 60 underwriters across the residential and commercial lending teams and secured senior credit committee buy-in, making climate screening a mandatory step in credit adjudication for all deals above \$5 mn - Ran a cross-functional overhaul of borrower risk stratification in core banking systems with technology and credit teams, writing requirements and sequencing rollout so climate flags reached underwriters' workflows - Converted a standalone 2040 net-zero pledge into Vancity's first interim decarbonization targets, anchored on a 54% reduction in financed emissions by 2030 across the commercial and real estate lending portfolios	Vancouver, Canada
2024 - 2025	NOVISTO <i>Data Management Analyst - ESG</i> - Took over a 4-person analyst team mid-restructure and established it as a standing function, delivering a full reporting workflow revamp in 3 months that cut feature release times by 75% - Drove product expansion into 14 new countries by advising engineering and product teams as firmwide SME on carbon accounting, double materiality, and global disclosure standards across varied legal regimes - Wrote 14 framework integration and 4 product enhancement specs, all shipped, across five client sectors	Montreal, Canada
2022 - 2024	JPMORGAN CHASE & CO. <i>Analyst - Climate Risk</i> - Authored the methodology and rollout of a climate readiness score measuring client preparedness for the net-zero transition, tracking decarbonization progress across \$1.1 tn in credit exposure - Uncovered \$140 bn in environmental risk concentrations by building a risk identification framework under tight deadlines, surfacing exposures that existing portfolio screens had never captured - Partnered with Wholesale Credit Risk to build transition risk scenarios quantifying exposure across a \$650 bn portfolio in Oil & Gas, Electric Power, and Auto Manufacturing, feeding JPMorgan's annual climate report	Mumbai, India
2022 - 2022	S&P GLOBAL <i>Analyst - Low Carbon Commodities</i> - Built emissions quantification models for oil fields and shales representing 82% of global oil and gas production, giving investors asset-level carbon intensity data where only company-level figures had existed - Partnered with the technology team to integrate low carbon datasets into Capital IQ, S&P's flagship platform used by investment banks, asset managers, and private equity firms for valuation, screening, and deal sourcing	Gurugram, India

ADDITIONAL DATA

- Leadership: Invited by Australia's Department of Foreign Affairs and Trade as a climate risk expert to its Climate Resilient & Green Economic Development Workshop in Ulaanbaatar, convening delegations from 12 countries
- Certifications: Sustainability and Climate Risk (GARP); Certificate in ESG Investing (CFA Institute)
- Interests: Urban planning - Led 50+ Guruwalks in Vancouver (green roofs tour) and Melbourne (secret alleys tour); Tennis - Australian Open volunteer; Amateur street photography
